

MEDICAL GEOGRAPHY

TAMIL TRANSLATION BY Dr. FAREENA RUZAIK

Dr. Fareena Ruzaik is a member of the academic team of the Dept. of Geography, University of Colombo, with remarkable experience in the field of environmental health Geography and allied other subjects. Her capacity in research activities, coordinating and various academic programs, for undergraduates and post-graduate students are added more value to her career.

This is her second book publication, after trilingual Glossary of Medical Geography, which was also published in the year 2020. She has written many articles and research papers to the conferences, journals, magazines, and online publications. I hope, this translated book on Medical Geography shall provide a better understanding about the subject matter for both undergraduate and postgraduate students of Tamil medium.

I wish her great success in all her future endeavors!
